It is the LMC's responsibility to ensure that their LMC reps and observers are registered correctly.

The system will record your IP address, if you start an application and need to continue later, you may receive this message, it is better to use an incomplete registration to avoid any duplications.

The screenshot shows a notification banner with the GPDF logo (Listening, Supporting, Influencing) on the left and the BMA logo on the right. The main text reads: "An incomplete registration was detected". Below this, it asks "Would you like to:" and provides two options: "Use the incomplete registration" and "Or, restart this registration". A green arrow points from a box labeled "Incomplete registration option" to the first option.

If you require any further assistance, please contact the event organisers,
