

**Your health, our priority:
Stand with your Surgery.**

In 2008, the *NHS* spent around 11% of its whole budget on General Practice. Today, that figure is less than 6.5%.

**Your health, our priority:
Stand with your Surgery.**

SURGERY

**Your GP Surgery is struggling
to meet demand: in Scotland
General Practice provides
650,000 appointments every
week, but many people still
struggle to get one.**

**Your health, our priority:
Stand with your Surgery.**

**1 GP for every
1,515 patients
in 2013**

**1 GP for every
1,735 patients
in 2025**

**There are not enough GPs to
provide the level of access
to General Practice that
patients were previously
able to benefit from.**

**Your GP Surgery is
struggling to meet
demand:**

- less resource**
- fewer GPs**
- more patients**
- more conditions.**

**Your health, our priority:
Stand with your Surgery.**
